# ENVIRONMENT CONSERVATION AUTHORITY.....

The Environment Conservation Authority was established to develop an overview of resource management, conservation and pollution control. The Authority has freedom of action, access to government information and especially invites public participation in its hearings. The reports and recommendations are submitted to the Minister of the Environment who must table them in the Legislative Assembly.

## why? what?

The Environment Conservation Authority reviews policies and programs concerned with pollution, conservation and resource development in Alberta.

Requests, complaints, and information are received from the citizens of Alberta.

The Authority may set up one or more public advisory committees on environment conservation matters.

Public hearings are conducted to receive briefs and submissions on specific environment conservation issues.

Expert knowledge from inside and outside government is combined with the express public interest.

## why? how?

The Environment Conservation Authority was established by the Environment Conservation Act of 1970 and became a crown corporation of the Province of Alberta in 1971. It is designed to oversee environment conservation matters in Alberta.

**who?** Members of the Environment Conservation Authority are:
